## CASEY CHASTEEN, PRESIDENT

Through Junior League of Springfield I've developed from a Springfield area resident to an active, engaged community member and volunteer leader. Junior League has helped build and foster my personal leadership qualities and ability through community volunteer opportunities and Junior League training. I've been introduced to talented, giving mentors and friends who share my passion for developing the potential of women as leaders. Through Junior League, I've become part of the non-profit community and its resources; I've engaged with non-profit, business and government leadership; and I've had an opportunity to meaningfully contribute to the betterment of the greater Springfield community.

## MILLIE SCHUCHMANN, MANAGEMENT DIRECTOR

I joined JLS in 2016 because I learned about the impact its volunteers have made over the past 60+ years. I wanted to be part of it! Along the way, I've met many other women who have a passion for developing as leaders while helping meet community needs, and I have learned so much from them! Because of Junior League of Springfield I have said yes to opportunities to stretch and grow my skills as a community member and a leader. Serving in JLS continues to show me daily the impact I can have just by giving my time, passion, and enthusiasm. And the skills I've built in the League have been helpful in my professional life too. Without JLS, I would be much less confident and knowledgeable as a leader, and I wouldn't feel as in tune with our community.

# COMMUNITY PARTNERS

**The Junior League of Springfield (JLS) leverages its resources to address issues of need in our community. Historically, JLS focused on child abuse and neglect due to the alarming rates of child abuse in Greene County that far exceed the state average. JLS has widened its impact in recent years to also focus on the needs of underserved and disadvantaged women and children in our community. The Junior League will impact these issues through advocacy and volunteer time. We will collaborate with local experts and organizations to develop strong intervention programs, raise community awareness, and be part of the solution.**
